4. **Examiner's Statement of Reasons for Allowance:**

Applicant(s) invention relates to a generator control, and more specifically, to a generator control scheme.

The scheme is developed to control generator output, which has a rectification capability for the generator AC output and a control feature of a short-circuiting of the generator's windings for obtaining a higher phase voltages, as disclosed. The claimed scheme has its embodiments, which are disclosed and claimed.

There are inventions in the field that provide similar functionality and/or have similar features, as prior art of record shows. Applicant(s) invention differs from the prior art of record by the elements of the control scheme, which were interpreted by the examiner as they are disclosed in the specification and the drawings, which are performing as disclosed and claimed, and which examiner's search failed to find.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
